In Class Training Application
Manitoba Environmental Certification & Regulation Awareness

On July 1, 1992 the Manitoba Government implemented The Ozone Depleting Substances and Other Halocarbons Act & Regulation. The legislation requires that any person working on (i.e. purchasing to work on, servicing, recharging, repairing) refrigeration or air conditioning equipment that contains a regulated substance be certified. There are also several other responsibilities that are associated with certification. On September 10, 2009 MOPIA adopted a new and updated training manual "*Environmental Awareness Training for Ozone Depleting Substances (ODS) and Other Halocarbons*"

Please note that when we have enough applicants and Covid-19 restrictions allow, an in-class course date (location, etc.) will be set. **Apply below for the MOPIA one day certification course.** You will be notified regarding your application for certification training approximately 5 days prior to the date of the next offered course.

The fee for the one-day in-class session is $210.00 and can be paid by cheque, Visa, Mastercard or by cash before or the day of the class. (Additional $15 if the manual/training package is mailed to you to recoup postage costs).

Please note that this is not trades training, it is regulation and environmental awareness training for certification under MR 103/94.

Please indicate the day slot that would be preferable to you.
☐ Weekday ☐ Weekend

Today's Date: _____ **Name of Applicant**: _____

Contact Person (if other than Applicant): _____

Company/Employer: _____

Contact Address: _____ City: _____ Postal Code: _____

Phone #: _____ Fax #: _____

E-mail Address: _____

How would you like MOPIA to notify you of details for the class?
☐ Phone ☐ Fax ☐ Email

Once a course date has been set you will receive a confirmation of attendance, which must be filled out and sent back to us before we can reserve a spot in the course for you.

1) List any air conditioning or refrigeration qualifications, licenses or certification you have.
_____

2) What trade area do you work in (i.e., auto, residential, etc.)? _____
3) How long have you been in the air conditioning and/or refrigeration sector? _____

Note: Remember, you may enroll in MOPIA's course only if your employment sector does not offer this training as part of its broader training program (i.e. RRC/ACC). Applicants should have work experience in refrigeration or air conditioning and must work within the trade as (or part of) their primary employment. Do not send any cheque or money & allow one week for processing. You will be notified approx. one week prior to the next course you've been assigned to attend. Payment is made at the course or by invoice.
