

Application for a Secondary Distributor (SD) Permit

Please Complete & Return with Your Payment

For the period January 1, 2015 – December 31, 2015
(Ozone Depleting Substances and Other Halocarbons Regulation 103/94)

A Secondary Distributor Permit is required in the Province of Manitoba, for companies who purchase regulated air conditioning equipment/parts or substances, under Manitoba Regulation 103/94. A secondary distributor is a company that imports into the province or purchases in the province an ODS or equipment, other than a white good (i.e. fridge, freezer). A SD permit allows the entity to purchase regulated products (i.e. refrigerant, parts components). Contact MOPIA for more details or for a copy of the legislation.

Only certified individuals and secondary distributors may purchase regulated products as described under the MR 103/94. Section 22 of the Regulation allows a person (i.e. corporation, company) who is not a manufacturer of a regulated substance or a trained service technician to become a secondary distributor.
